NAMA: Huzaifah M. Lais Lubis

NIM: 191402120

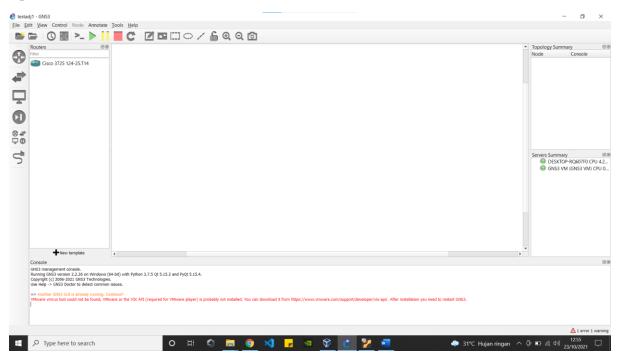

UTS:Administrasi dan Jaringan

Link 1:

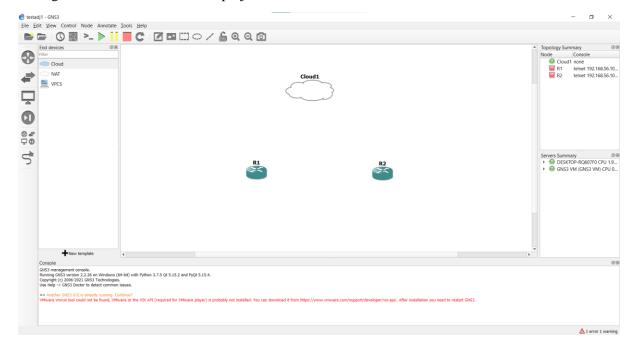

1.buat new file

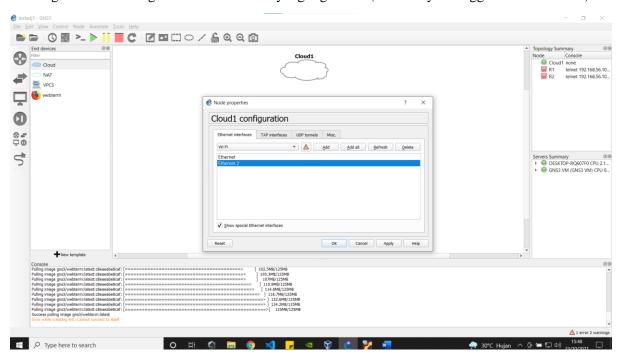

2.pastikan sudah ada cisco 3725

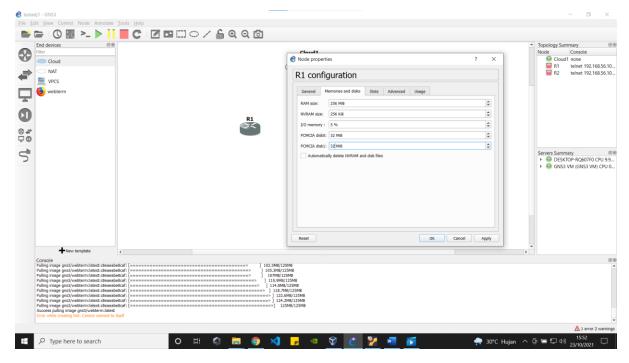

3. drag cloud dan 2 cisco kedalam project

4.configurasi cloud dengan memilih ethernet yang digunakan(disini saya menggunakan ethernet2)

6. kemudian klik console dan tampilan akan berubah seperti dibawah:

```
32768K bytes of ATA Slot@ CompactFlash (Read/Write)
Installed image archive

SETUP: new interface FastEthernet@/0 placed in "shutdown" state
SETUP: new interface FastEthernet@/1 placed in "shutdown" state
% There may not be enough space available to collect the complete crashinfo
% It would be advisable to have 280755 bytes free space on flash:crashinfo

Press RETURN to get started!

```

7. ikuti Langkah pada sumber yang diberikan: https://docs.gns3.com/docs/using-gns3/advanced/connect-gns3-internet/ akan tetapi memilih Option 2 yaitu Manual Configuration

8. pada bagian dibawah ini ip yang digunakan adalah ip cloud yang dikoneksikan (dalam hal ini saya menggunakan ip dari ethernet2)

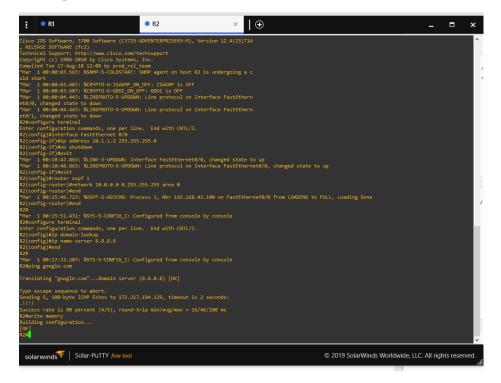

```
R1# configure terminal
R1(config)# interface FastEthernet 0/0
R1(config-if)# ip address 192.168.1.123 255.255.255.0
R1(config-if)# no shutdown
R1(config-if)# exit

Configure a default gateway:

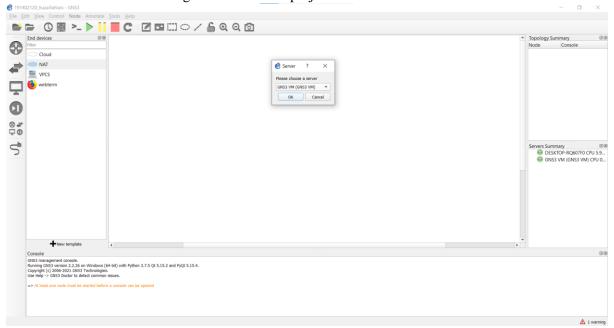

R1(config)# ip route 0.0.0.0 0.0.0.0 192.168.1.249
R1(config)# end
```

9. untuk melihat ip addressnya bisa dilihat melalui common promt dengan mengetik ipconfig:

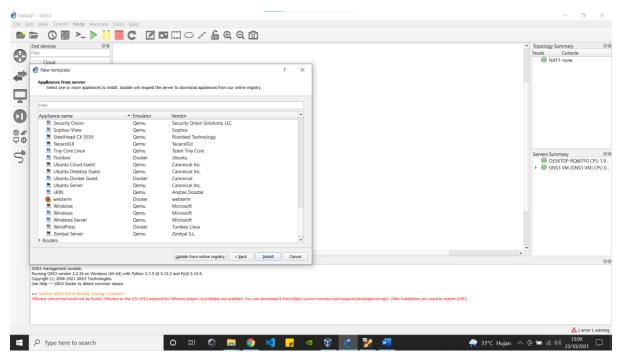

10.setelah itu tinggal mengikuti link pada sumber yang tertera dan apabila berhasi maka tampilan akan seperti berikut:

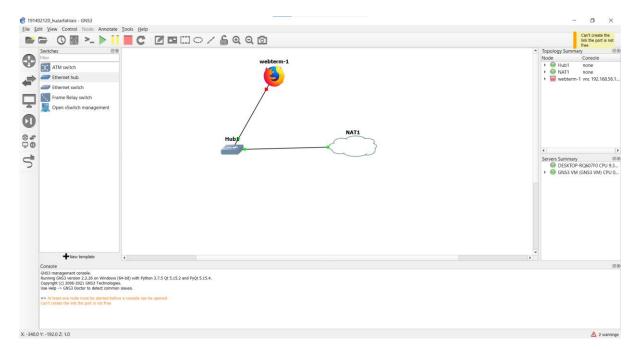

1. masukkan nat dan memilih gns3 vm kedalam project

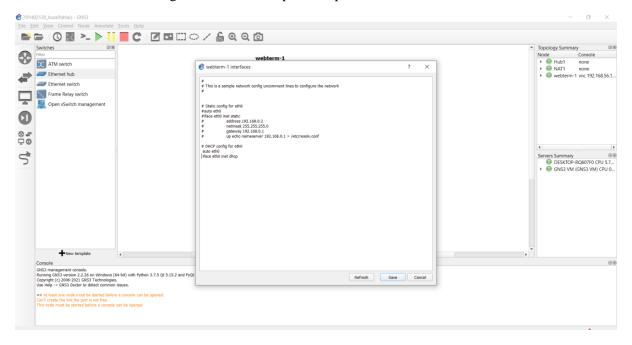

2. install webtern pada new template

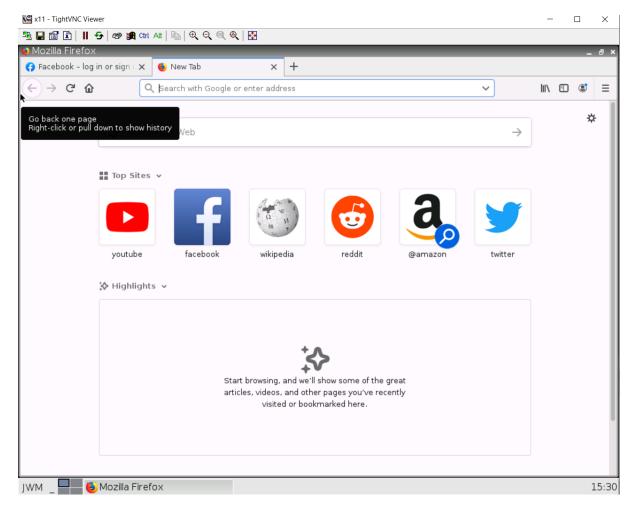

3. masukkan wbetern,nat dan ethernet switch pada project:

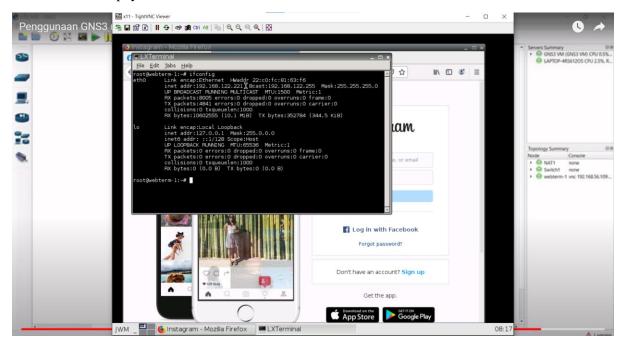

4.kemudian klik edit config dan un comment pada dhcp:

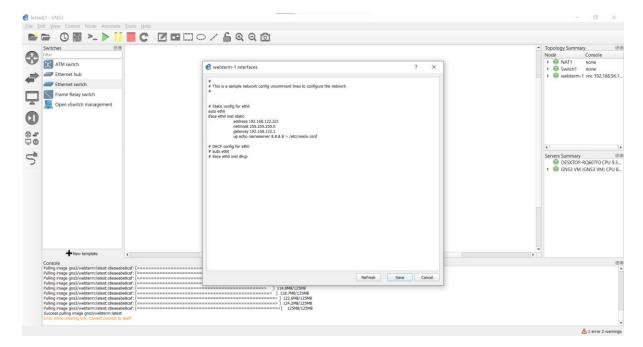

5. kemudian klik kanan 2 kali pada webterm dan apabila koneksi internetnya sudah bisa maka telah berhasil:

6. kemudian cek ipnya

7. kemudian menggunakanstatic dengan cara uncommen bagian static dan mengganti ip address sesuai pada address terminal diatas dan gate away diganti ke 221.1

8. maka setelah berhasil akan bisa internet seperti berikut:
